

These estimates are based on planned restoration work.

Information current as of 10:30 a.m. on November 8, 2012.

Estimates for Monmouth and Ocean Counties do not include devastated shore communities.

The "Pct Restored On" columns represent the percent of customers who are expected to be restored that calendar day, based on the work plan. These figures do not represent the total number of customers who are currently out of power. Estimates are considered less precise with dates later in the week.

The majority of customers that do not have power, including those that experienced new outages as a result of the nor'easter last night, will have power restored by Saturday evening. Some communities will have their power restored by Sunday evening where our line forces must replace the service wire to their homes. Devastated areas, including areas of the Barrier Islands where we were not able to begin service restoration until recently, will extend into next week.
